6/30/96

Dear Harold,

Enclosed please find various news clippings of interest. I had talked to your wife about 10 days ago and she said that you were in Johns Hopkins. I hope that you are home and feeling better. My wife had to have major surgery as she had a growth in her maxillary sinus which was causing all her nose bleeds. She is now home and is doing well. I hope you are OK and my prayers are always with you.

Sincerely,

Scott Wilson
